

The tree seedling nursery for Northern Pulp is located in **Debert, Nova Scotia**. With 24 greenhouses and 2.4 hectares of outdoor growing space, we are the largest tree nursery in the province growing approximately 6 million seedlings annually. We are looking for **seasonal** workers to join our nursery team.

Crop Maintenance

Crop Maintenance employees are responsible for watering and fertilizing crops, weeding crops, following a continuous feed schedule, pesticide application and frost watch.

Employees must be available to work weekends on a rotating schedule.

This work can be physically demanding and may require bending, lifting, twisting, and standing for long periods.

Employees must supply their own Grade 1 safety boots that extend above the ankle. Company provides any other required equipment.

Approximate start date: April 8th, 2018

Job Status: Seasonal – Approximately 20 to 25 weeks

Location: Debert, Nova Scotia

To apply please forward resume and coverletter to northernpulpresumes@northernpulp.com
