

The tree seedling nursery for Northern Pulp is located in **Debert, Nova Scotia**. With 24 greenhouses and 2.4 hectares of outdoor growing space, we are the largest tree nursery in the province growing approximately 6 million seedlings annually. We are looking for **seasonal** workers to join our nursery team.

General Labour

General Labour employees are responsible for performing maintenance on the grounds, machinery, equipment and greenhouses at the nursery, assisting with crop maintenance, preparing seedlings for overwinter, loading seedlings into delivery trucks and other duties as assigned.

This work can be physically demanding and may require bending, lifting, twisting, kneeling and standing for long periods.

Employees must supply their own Grade 1 safety boots that extend above the ankle. Company provides any other required equipment.

Approximate start date: March 18, 2018

Job Status: Seasonal – Approximately 15 weeks

Location: Debert, Nova Scotia

To apply please forward resume and coverletter to northernpulpresumes@northernpulp.com
