

Northern Pulp Nova Scotia Corporation operates a modern highly technical bleached kraft pulp mill at Abercrombie Point in northern Nova Scotia.

We have immediate opening for the following position:

JOURNEYMAN INSTRUMENTATION AND CONTROL TECHNICIAN

This position will be of interest to a **Journeyman Instrumentation and Control Technician**. The successful candidate must hold a High School Completion Certificate, or equivalent. Work experience within the Pulp and Paper industry is considered an asset.

Candidates are requested to provide full details of experience in:

- distributed control systems
- personal computers
- electronic, pneumatic and hydraulic systems
- programmable logic controllers
- analyzers
- maintenance management systems.

Candidates must have demonstrated a positive work ethic and the ability to work and communicate in a team environment; have good analytical and problem solving skills; be capable of working with minimal supervision in a changing work environment; and be adaptable to various work assignments and conditions. These positions require a responsible individual interested in self-development, with a commitment to workplace safety and quality.

A Red Seal industrial electrician or another Red Seal trade will be considered an asset.

This is a full-time bargaining unit position with a full range of benefits that are comprehensive and competitive. **To apply, forward the following:**

- detailed resume
- references
- copies of **all** related academic transcripts and certificates of qualification to:
