

**NORTHERN PULP  
NOVA SCOTIA CORPORATION**

**Northern Pulp Nova Scotia Corporation** operates a modern highly technical bleached kraft pulp mill at Abercrombie Point in northern Nova Scotia. We currently have an opening for the following position:

### **LEADER BUSINESS INFORMATION SYSTEMS**

This position leads a small team responsible for all aspects of managing and running current systems within a pulp mill environment. The position reports to the Controller and corporate CIO.

This position requires a degree in Information Technology, Computer Science or similar qualifications. The successful candidate must have at least 8 years of experience in the delivery of a broad range of information technology and telecommunications systems. Hands on experience in managing and troubleshooting user platforms, servers, and network routing/switching infrastructures within Microsoft, Cisco, and VM centric environments is essential. Managing core applications and databases specific to our mill will also be required. Any additional software development skills will be considered advantageous.

The incumbent must be a strong and empowering leader who inspires confidence with demonstrated project management skills. The incumbent must be self-motivated with a track record of following tasks through to completion. We are looking for a candidate with strong interpersonal skills combined with excellent verbal and written communication skills. In addition, those with a strong ability to learn and adapt to our changing environment are encouraged to apply.

If you are a performance-oriented individual with strong technical and communication skills and the ability to work with a sense of urgency, we offer great challenges and opportunities with a salary and benefits package that is both comprehensive and competitive.

**To apply, forward the following:**

- detailed resume
- references
- copies of **all** related academic transcripts and certificates of qualification to:
