

The tree seedling nursery for Northern Pulp is located in Debert, Nova Scotia. With 24 greenhouses and 2.4 hectares of outdoor growing space, we are the largest tree nursery in the province growing approximately 6 million seedlings annually. We are looking for seasonal workers to join our nursery team.

Seedling Thinner

Seedling Thinners are responsible for removing all excess seedlings from jiffy plugs and transplanting them where necessary. This is a piece rate job.

Employees must be dependable as this is a time sensitive process. This work can be physically demanding and may require bending, lifting, twisting, and standing for long periods.

Employees must supply their own Grade 1 safety boots that extend above the ankle. Company provides any other required equipment.

Approximate start date: April 29th, 2018

Job Status: Seasonal – 6-9 weeks

Job Location: Debert, Nova Scotia

To apply please forward resume and coverletter to northernpulpresumes@northernpulp.com
